

WARNING

THIS PRODUCT MUST BE INSTALLED IN ACCORDANCE WITH THE APPLICABLE INSTALLATION BY A PERSON FAMILIAR WITH THE CONSTRUCTION AND OPERATION OF THE PRODUCT AND THE HAZARDS INVOLVED.

Electrical current can cause painful shock, a serious injury, or even death. Make sure you turn off the power supply, ground fixture(s), and make sure all electrical connections are correct and secured.

Keep the label of the original packaging if any eventual future claims are needed.

- 1 Wrap the tree strap belt with the installation belts around the tree. Once it is wrapped around the body of the tree secured the belt strap's buckle using the over and through method as shown in the photos below

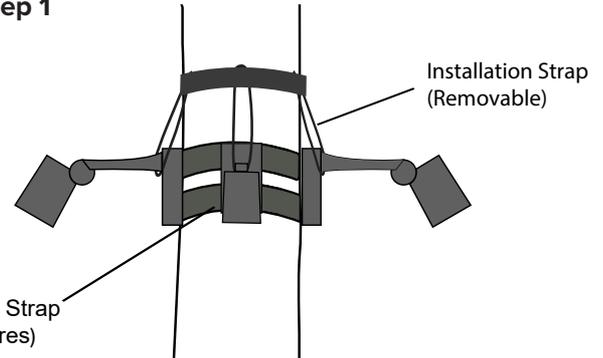

A. Pull strap and tightened

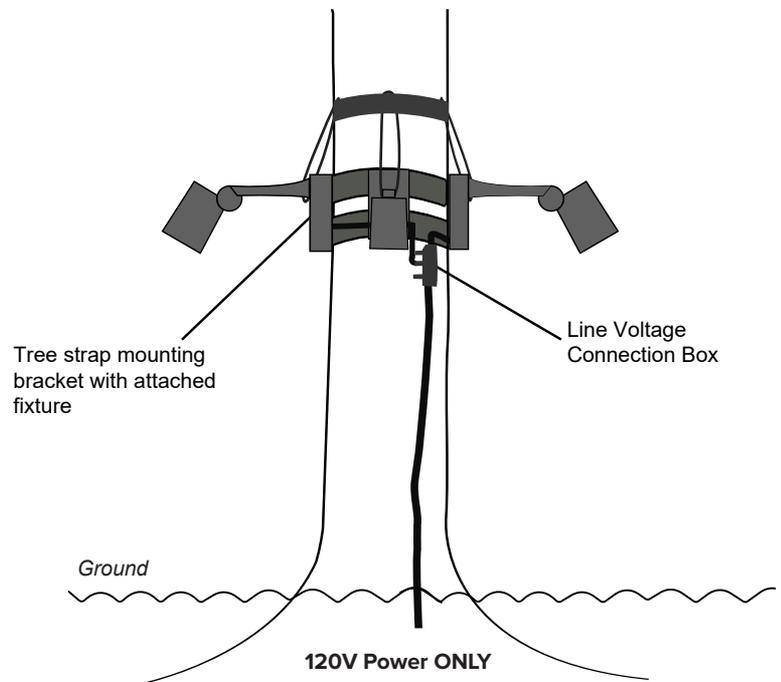

B. Loop over and through the buckle

C. Pull and tightened to secure

- 2 Once the installation belts are secured on the tree, attach each of the installation belts with the fixtures and secure the fixture's tree strap belt 6" below the installation belt strap. Be sure to use the same strapping method as the installation belt shown in step 1

- 3 Once Tree strap is secured with the fixture's tree strap belt secured below, assemble and connect the line voltage box with the fixtures and power up the connection box with 120VAC power only

Maintenance

This fixture was designed and manufactured for a durable, long lasting use with minimum care. To ensure the maximum lifespan of this product, we encourage our customer to provide a quality visual inspection of the tree strap and adjust the tree strap every six months
